PROFESSIONAL SUMMARY

UX Manager with 12+ years of experience leading enterprise UX strategy across Data Analytics, Financial Services, and Professional Services domains, including domain-led Agentic AI platforms spanning Spend Intelligence, Procurement AI, Contract/Conference Solutions, and Credit Risk Assessment. Currently manage a team of 4 senior UX designers and leads across distributed teams in Chile, the US, China, and India, owning hiring, mentoring, and design-quality standards for the group. Sole architect of Evalueserve's first company-wide design system, and led the team's migration from Adobe XD/Photoshop to Figma to modernise collaboration and file-sharing workflows. Partner directly with senior leadership on high-value client RFPs and POCs, including a 6-month engagement with Mastercard. HFI-Certified UX Analyst (CXA) blending design systems thinking, behavioral psychology, and AI-augmented workflows to connect design decisions to business outcomes.

KEY IMPACT SNAPSHOT

~35% Faster prototyping-to-review turnaround using AI-assisted design workflows	~20% Reduction in design-related dev rework and handoff friction
~30% Increase in user interaction after Credit Risk platform redesign	~30% Growth in active users on the same Credit Risk platform post-launch
1–2 wks From workshop kickoff to first-draft wireframes on the RFPs	9 Senior designers & leads managed across 4 countries (Chile, US, China, India)
1st Company-wide design system built and owned from the ground up at Evalueserve	8+ B2B enterprise products/RFPs supported with design strategy and prototypes

CORE COMPETENCIES

UX Team Leadership	Hiring & Talent Development	Design Systems Ownership
Global Team Management	Client RFP & POC Strategy	Design Critique & QA
Figma (Components, Variables, Dev Mode)	UX Research & Testing	AI-Led Prototyping
GenAI Pipeline & Governance	AI-Shaped UX Patterns	Visual & Motion Craft
Information Architecture	Data Visualization & Analytics	Workflow-Based Interfaces
Stakeholder Alignment	WCAG 2.2 Accessibility(Basic)	Design Ops & Tooling

PROFESSIONAL EXPERIENCE

UX Manager / Lead UX-UI Designer — Evalueserve Pvt. Ltd., Gurgaon *March 2022 – Present*

B2B enterprise platforms across Data Analytics, Financial Services, Professional Services, and domain-led Agentic AI solutions (Spend Intelligence, Procurement AI, Contract/Conference Solutions, Credit Risk Assessment)

- **Team Leadership:** Lead and mentor a team of **senior UX designers and leads** spanning distributed teams across **4 countries (Chile, US, China, India)**; run **weekly design review sessions** to critique prototypes, unblock decisions, and align the team on quality bar and direction.
- **Knowledge Sharing:** Host **regular knowledge-sharing sessions** across the design org — covering AI-in-design best practices, tooling updates, and research findings — to raise team-wide capability and keep practices consistent across geographies.
- **Hiring & Talent:** Own end-to-end hiring for the UX function, recruiting senior designers and leads capable of executing independently — building a team that can scale design output without day-to-day oversight.
- **Domain-Led AI Platforms:** Drive UX for multiple **domain-led Agentic AI platforms** spanning **Spend Intelligence, Procurement AI, Contract/Conference Solutions, and Credit Risk Assessment** — designing **AI-shaped UX patterns** (assistant UI, conversational, recommendation-driven workflows), **workflow-based interfaces**, and **engagement analytics dashboards** that turn complex, data-heavy enterprise systems into intuitive, human-friendly experiences.
- **AI-Led Prototyping & Enablement:** Drive adoption of AI-assisted prototyping tools and GenAI workflows across the design org, applying **prompt engineering, quality control, and brand governance** to keep AI-generated output consistent with design system standards. This work cuts prototyping-to-review turnaround by **~35%**, reduces design-related dev rework by **~20%**, and enables the team to test **2–3x more design concepts** per sprint. Author and share AI-in-design best practices to accelerate adoption across the wider team.
- **Design System Ownership:** Sole creator and owner of Evalueserve's **first company-wide design system**, built from the ground up and adopted across **8+ B2B products** to standardise UI patterns and speed up delivery.
- **Tooling & Design Ops:** Championed and led the team-wide migration from Adobe Photoshop/XD/Creative Cloud to Figma, improving cross-team file sharing, real-time collaboration, and design handoff for the full design organisation.
- **Client & Leadership Partnership:** Partner directly with senior leadership on client-facing RFP and POC design initiatives, translating business requirements into winning design narratives for prospective enterprise clients.
- **Mastercard Engagement:** Led UX for a **6-month engagement with Mastercard**, designing an internal portal to track **card usage and spend metrics**; delivered a solution that was **appreciated by the client** for its clarity and usability.
- **Credit Risk Platform Turnaround:** Took ownership of a credit risk assessment platform that had **low user interaction and a shrinking user base** at client handover. Ran extensive discovery workshops and research over **1–2 weeks**, delivering first-draft wireframes early to validate direction — the client's positive response to this early draft informed a full end-to-end flow redesign, which was reviewed, refined, and delivered, driving an estimated **~40% increase in user interaction** and **~30% growth in active users** post-launch.

Sr UX Designer — Innovative Logic Lab Pvt. Ltd., Gurgaon *June 2016 – March 2022*

Marine Edutech Platforms, LMS, VR Training, Dashboards, and B2B Applications

- Led end-to-end UX for marine edutech, learning management systems, and VR training experiences, translating complex technical content into engaging, usable interfaces.
- Conducted user research, usability testing, and stakeholder workshops that directly informed product and design decisions across education and enterprise clients.
- Delivered wireframes, prototypes, and final UI designs in close collaboration with cross-functional engineering and product teams.

UI Designer — Techinfo Software Services LLP, Lucknow *August 2015 – May 2016*

- Designed user interfaces for web and mobile applications and conducted user research to improve design effectiveness.

UI Designer — Alcanzar Software Solutions Pvt. Ltd., Lucknow *January 2014 – February 2015*

- Designed interfaces for web applications and developed design guidelines; mentored fellow designers on UI best practices.
- Designed across 200+ mobile games reskinning and 5 apps

TOOLS & TECHNOLOGIES

- Figma (Design, Make, Site, Figjam)
- Adobe Creative Cloud
- Claude, ChatGPT, Copilot, Gemini
- AI-assisted prototyping tools (Figma AI, GenAI design copilots)
- Prompt engineering for design workflows
- AI-powered research & synthesis tools

AWARDS & RECOGNITION

- Star Performer — Individual Award for consistent, high-quality delivery
- You Make a Difference Award — Individual Category
- Made My Day Award — Individual recognition for impact
- Dream Team Award — Agentic AI Solutions
- Dream Team Award — GenAI Solutions

CERTIFICATIONS

- Certified User Experience Analyst (CXA), HFI Training Ltd. — November 2023
- Enterprise Design Thinking Practitioner, IBM — May 2024
- AI for Designers, Interaction Design Foundation — September 2024
- Becoming an AI-First Product Leader, LinkedIn Learning — April 2025
- Accessibility-First Design, LinkedIn Learning — May 2025
- Design to Code: Using AI to Build Faster, LinkedIn Learning
- Other UX related certifications from IDF.

EDUCATION

- Diploma in 3D Animation and Graphics Design — Picasso International College, Lucknow (2011–2013)
- Bachelor of Commerce — Lucknow University, Lucknow (2009–2012)
